Yea I think that could cause issues for them with vandalism and associated issues. There is a non-CBI description of the product that is going to be in the docket, but not a CBI redacted copy of the EUP.

Yeah I was hoping they would be putting up some sort of notice on the days of release or something , but sounds like no.

Isn't there a version that is posting in the docket? That has CBI removed? No worries about getting it to me though. You answered my main question.

Thanks!
Isabella

If you are not CBI cleared then I don't think I can provide you that document. Not sure I understand your comment specifically, like the exact day and time they will release or the years they will release. The answer to the former is NO, the answer to the latter is it would be two years from the date we approve it if we approve it.

Actually it's funny you should mention that... I don't think I am right now..

If you can't give it to me could you just let me know if there is some sort of notification system when oxitec is about to release the mosquitoes? Or if there is any other similar things that would help give people peace of mind?

The EUP is in Documentum, let me see if I can dig up the number for the submission. You are CBI cleared correct?

Subject: RE: Oxitec Fact Sheet for Administrator's Notebook

I am working on the comms now. An OPP Update, Back Pocket Qs and As, and quotes for the OPP Update. It would be helpful to have the background doc that was sent to Alex (I have the attached that went to the administrator, but Mike mentioned that there may be a second more detailed version.)

I was also wondering if I could have a copy of the EUP?

Thanks in advance for your help!

Hoping to have something for you to review shortly.

Isabella

Isabella,

I'm on a meeting call right now, but can pull this information together while I listen. If you need something specific beyond the highlighted text below shoot me an email.

Might take me a few minutes to find it all, but I think I can get it to you by lunchtime or so.

Kaitlin,

Sorry for the delay. Here's the revised one-pager that addresses Alex's comments. We'll send you the hearing fact sheet tomorrow.

Subject: RE: FYI - NOR Signed - Notice of Receipt for Oxitec EUP

Here are my comments; if we could get a new version by EOD today that would be great; I'd like to send home with the Administrator tomorrow. Once we get this cleaned up it likely would form a good basis for the hearing binder factsheet, which we'd need EOD tomorrow.

I revised a one-pager that we provided to the OCSPP-IO in mid-July (see attached). We will work on fact sheet for the Administrator's hearing notebook.

Let us know if you have any comments or questions.

Same note I just sent to a smaller group in error:

This is the Oxitech genetically engineered mosquito EUP for public comment. I would like information I can send ahead to the Administrator so he's not caught by surprise on this. I think you said last time we got lots of public attention? Also we discussed a one pager for the science hearing.

I will sign for FR processing once I have that info.
